### Wood's Contract Award for West-Qurna-1 Oilfield Services

Scottish-based Wood announced that it has been awarded a 5-year contract to deliver specialist engineering solutions at the West Qurna-1 field, without disclosing the value of the contract. The scope of work includes improving day-to-day operations of the oilfield's producing assets and facilities, while investing in local talent development programs and exploring possibilities to reduce the environmental impact. The contract will be delivered by Wood's local teams in Basra, backed up by the company's engineering office in the UAE.
