## Al Majal Updates

### Great Presence for Al Majal at ADIPEC 2021

We were very happy to participate as an exhibitor for the first time at this year's Abu Dhabi International Petroleum Exhibition and Conference (ADIPEC), which took place in November. It was great to be amongst a select few Iraqi energy services companies to exhibit in the event. We had the opportunity to highlight our growing service offerings to the energy sector in Iraq, share exciting updates and connect with our clients

and partners in person. Our team had fruitful high-level engagements that focused on mutual value creation and service excellence for Iraq's oil and gas industry.

At Al Majal, we would like to thank our clients, partners and everyone who visited our stand , and we look forward to exhibiting again in 2022.
