

Al Majal Updates

Al Majal Technical Services (AMTS) Completed Overhaul of Large Oil Heater for an Oil and Gas Operator

The AMTS team has successfully completed a large job for a major oil and gas operator, the scope of which covered work on an oil heater (coils and nozzles). The execution was done by AMTS engineers and

technicians and involved the use of a 130-ton mobile crane and a 20-ton mobile man basket for conducting the lifting operations.
